I also tested off the EPA network and can't get it to load. I have notified the developers. I guess we don't need to worry yet about the public inadvertently seeing it.

Tested on mobile. Same result.

Could be a domain issue on your end…you may have access to something that's not available outside the firewall

Can you double check that it's working? We're not seeing anything but a banner here.

Also, please do NOT share this url. We'll need to get this reviewed by PIO. Thanks.

All,

They just received approval and turned on the Public Viewer for the Gold King ER. Have at it.
